November 25, 2020

Dear Pastor:

Georgia had a record turn-out of Black voters earlier this month in the November 2020 elections. Now, we need to do everything possible to get those voters to vote again, January 5, 2021 in the US Senate Georgia Run-off. The Black Church has the opportunity to improve the lives of all Georgians and particularly the lives of Black Georgians. We are only one more election away from healthcare, police accountability and an end to voter suppression. It is up to us, now!

Black Church 75 (BC75) is a non-partisan Voter Engagement Initiative of the Conference of National Black Churches (CNBC) and the National Action Network (NAN). BC75 is working with the General Missionary Baptist Convention of Georgia to register all unregistered voters within its member churches by December 7, 2020 and to turn out all registered voters on January 5, 2021. We can assist your church immediately with our system and tools to help your church increase voter participation in the runoff elections by helping you contact every registered voter in your church and ask them to vote early in the upcoming runoffs.

We can also arrange to have a voicemail or text message or both to go from the pastor or his/her designee to all your members urging them to vote in the January 5, 2021 runoffs. Please contact us by email at info@blackchurch75.com or call us toll free at 833-678-4448 if you want us to help. There is no charge to your church for any of these tools. Please visit our website (www.blackchurch75.com) for more information.

Your convention will also assign a state leader to help the unregistered voters get registered and help registered voters take advantage of early voting. We can also identify or confirm their polling locations and/or secure transportation.

We can, and we will, be the difference in 2021.

God Bless,

Jacqui Burton
